The Stated Goals of the Federation of State Physicians Health Programs:

- * The FSPHP will achieve national and international recognition as an organization providing support for state physician health programs.
- * The FSPHP promotes the best medical care possible for all patients.
- * The FSPHP contributes toward this effort by promoting early identification, treatment, documentation, and monitoring of ongoing recovery of physicians prior to the illness impacting the care rendered to patients.
- * The FSPHP organizational structure shall be adequate to achieve its vision and mission.
- * The FSPHP will pursue the development and use of consistent standards, language, and definitions among state physician health programs to fulfill its mission.
